Arthur Goldberg ☆, former "No-Win" Ambassador to the U.N., publicly stated (NY Times 3-5-66): "My view is that America is not fighting to win a war. We are fighting to give ap-

plication to an old Greek proverb, which is that the purpose of war is not to annihilate an enemy but to get him to mend his ways." Manny Fleischmann ☆, Defense Production Administrator under Pres. Calley Thrown to the Wolves . . .

(Continued from Page 1, Column 3)

espionage in the U.S.A. Alfred Stern turns up in Hanoi from time to time to broadcast anti-American propaganda on the Communist radio.

The Sterns are related to the fabulously wealthy Lehman's of New York. They are related to the Rosenwalds of Sears, Roebuck fame. They are present-day "American nobility." They are certified and typical members of the ruling class. Alfred K. Stern looks after the family interests in Hanoi, while Alfred R. Stern is a vice-president of NBC in New York. Aunt Edith finds time to boss Louisiana politicians. The only one whom the Sterns have not been able to dominate is Congressman Rarick. Rarick is forced to exercise great care to keep his soul inside his skin; several attempts have been made to murder him. Aunt Edith gets along well with DeLesseps Morrison and John McKeithen. The Sterns are the real "governors" of New Orleans and of much of Louisiana.

Bought Hide of Calley

These are the people who bought the hide of Lt. William L. Calley, Jr. Understand that they had nothing personal against Calley. They simply required the hide of a lieutenant. Any other lieutenant would have done just as well. It was the uniform and the insignia they were after. The Sterns paid a Jewish writer named Seymour M. Hersh \$1,000 and set him on the prowl in Vietnam to catch a "Looie" for them. If they had caught some other "Looie" before they caught Calley, then Calley would have been home safe. It was Calley's misfortune to get caught in the web of Jewish journalistic treachery. The drumfire of expensive propaganda began. Untold thousands of dollars were spent to blacken the name of Lt. Calley. One single TV show alone cost \$10,000. On this show, one Paul D. Medlo appeared. On the show Medlo said, "Calley ordered 370 people killed. I personally killed about 10 to 15." Later, on the witness stand, Medlo became tongue-tied and took the Fifth. Even when he was guaranteed immunity from prosecution, he refused to testify. He was flung into the pokey; after languishing for some days, he loosened his tongue and told a story vastly different from the one he had told on TV. He testified that the men, women and children of Song Mai were kill-crazy and very fierce Viet Cong. Why did Medlo tell one story on TV and another on the witness stand?

Actually, the so-called "evidence" in the Calley case is absolutely worthless, since it was manufactured by Jewish journalism, financed with Jew money. Only Jewish Money talked. These rich Jews wanted the hide of a "Looie" and they bought one.

Why Did They Do It?

Jews are instinctively afraid of military power. Time and again, military power has

been the protector of the people against the money power of the Jews. They wish to make sure that such a thing will never happen in the U.S.A. One thing especially gives them jitters. At one time, the notorious Jewish Chief of Police, Lavrenti Beria, was the Jewish boss of Russia. On a bright day, in 1953, Marshal Zhukov, the war hero, appeared in Moscow with two divisions of troops. Beria was seized and sent to his eternal reward, and the whole structure of Jewish power in Russia came tumbling down in ruins. Time and again, all through history, this has happened. The Jews establish themselves as happy vampires and suck the blood of a Goy nation. No civilian politics of any kind can dislodge them. The Jews know how to buy the cheapjack politicians of a Democracy in job lots.

Indeed, such a thing is utterly easy. As Yockey said in his Proclamation of London, "These deputies are mere things, replaceable units describable only mathematically, in aggregates. Among them there is not and cannot be, a strong individuality, for a man, a whole and entire man, does not sell himself like these parliamentary whores." The Jews have nothing to fear from the civilian politicians of America. The Jews own the Republican Party, the Democratic Party, and the Communist Party. With all three of these parties securely in the bag, they have neutralized the electoral system. It is impossible to vote the Jews out of power in America. Many of our shallow-minded voters, brainwashed by the Jewish media, are happy if they can elect some silly ass who calls himself a "Conservative." Actually, it makes no real difference who is elected. The elected government is merely a rubber stamp for Jewish power.

The Jews, to secure their power, constantly examine the scene to see who might threaten them. There was only ONE power left which might challenge them, the Military power. The Jews set about undermining this power. They have downgraded the Joint Chiefs of Staff. They have kept the military power under a constant press attack. This serves no purpose of idealism; it serves only the purposes of Jewish power.

Let us carefully define the word "Jew." The word "Jew" in this context does not include Abbie Kahibbe, the Jewish pants presser down on the corner. Nor does it include Sam Goniff, who runs the pawnshop. It DOES include a great many wealthy Anglo-Saxons who have bathed themselves in the moonshine of a false, apostate "Jewishness." Indeed, it is hard to say who the American "Jews" are. They are NOT people descended from the ancient Hebrews. Indeed, the Jews would hardly dare to advance such a claim themselves, if so many Goy preachers did not so madly love the idea of a "Chosen people." The American Jews are racially nondescript. Few of them believe in the old Jewish religion. Many who do believe in it tend to withdraw as much as possible

from the antics of the Zionists. The American Jews are organized around money power rather than religion.

Today there is an irreconcilable conflict between military power and money power! This conflict is described beautifully by Oswald Spengler on the last two pages of his masterwork "The Decline of the West." "A power can be overthrown only by another power, not by a principle, and no power that can confront money is left but this one. Money is overthrown and abolished only by blood." The Jews mortally hate and fear militarism. As a small race, they cannot hope to take much advantage from it. They seek always to organize the world on the basis of money and intellect rather than military power. David Ben Gurion expressed the Jewish ambition perfectly, to establish "A world state with a world court in Jerusalem." Spengler demolishes this dream with his sour statement: "World History is the World Court."

Fear Military Power

Only one power remains in the world which can destroy the Jewish machine, the military power. World Jewry cannot be defeated by "anti-Semites" who sit on park benches and grumble. It cannot be defeated by "Conservatives" whose only program is nostalgia for the Nineteenth Century. It cannot be voted out of power, since it controls the parties. The "anti-Communists" are no danger to Jewish power. Is not Billy James Hargis selling tours to Israel for \$499? We see in his paper ads for "Silver spoons from the Holy Land." Hargis is not beyond giving Israeli industries a little boost. Welch and McIntire praise the Jews. Billy Graham has spent \$500,000 making a film praising Israel. Jewry has nothing to fear from the crumbling Christian churches. There is only one power which the Jews fear: the military power . . .

The Jews are determined that there shall be no military power in the United States capable of challenging them. Indeed, they have achieved their aim. There is now no military power capable of challenging the Jews: but neither is there any military power capable of defending the country. Thus, in order to secure the power of the Jews on the domestic scene, we are stripped of the military means necessary to keep the U.S.A. on the world map. We are reduced to dependency upon crackpot Jewish schemes for organizing the world. These schemes have already failed!

Efforts are made to phrase the world crisis as a conflict between "Communism" and "Capitalism." This is false. Marxism and the money power rose together and will fall together. Far from being enemies, they are brothers under the skin. The real conflict today is between money power and military power. On the world stage today, the U.S.A., firmly under Jewish rule, stands for money.
